

# The Hidden Truth about Aliens and Vaccines

David Brinkman – 2025

A responsibility of a Government is to maintain control of their people. Sometimes this type of authority is taken too far, and it becomes abusive. Vaccines and the UAP/UFO non-human intelligence phenomenon are examples of this.

For fifty years, we were unsuccessful in developing a vaccine for the common cold which is a coronavirus. Pharmaceutical companies could have made billions of dollars on a common cold vaccine had they been successful. But, when COVID-19 came along, suddenly, in the span of less than nine months, multiple pharmaceutical companies claimed they had each independently succeeded in making a COVID-19 vaccine. Of course, they said they succeeded because the US government was offering them 18 billion dollars to say that they were successful.<sup>1</sup>

With fear building in the public over the virus, the governments of the world decided to push these new vaccines as a way to show that they had things under control. The US Federal government pressured the medical profession to endorse the vaccines and make all medical employees take the shot. Government and private employees were threatened if they did not agree to take the vaccines. Many people lost their jobs when they refused to take the shot. And then the ultimate red flags appeared. The government made themselves and the vaccine makers free of all liabilities in the cases where the vaccines did not work or had serious side-effects, including death. And then, the FDA wanted court approval to prevent public disclosure, for 75 years, of the vaccines' development and testing data.<sup>2</sup>

The COVID-19 vaccine development was completely against the scientific method. To silence, censor, and threaten people who question science is an abomination of science itself. Locking up development and testing data was outrageous. This was a gross abuse of government power. We are now witnessing the consequences of injecting people with vaccines that had no science behind them. As far as the vaccines protecting people from COVID-19, contained studies have shown that un-vaccinated people were no more likely to get COVID-19 than the vaccinated people.<sup>3</sup>

But, the government did succeed, through disinformation, in fending off panic over the virus. They temporarily prevented people from losing confidence in their so-called leaders.

And what about a Vaccine for the common cold? Work done using real science has still been unsuccessful at making a vaccine for the common cold.<sup>4</sup>

For over 100 years now, we have seen the same abuse related to UAPs/UFOs.

My experiences with the UAP/UFO non-human intelligence phenomenon began in 1970 when my grandmother claimed to have seen, twice, flying saucers land in a plowed field of their farm in Virginia. My grandmother was a very intelligent woman, and she was not the type to make up wild tales like this. For many years, the government denied UFOs and made UFO experiencers like my grandmother, look like crackpots. Because of this perception, my other relatives chuckled about my grandmother's "silly" sightings. Even though I was only 10 years old, I knew there must be something to what she had seen. I recently found data on UFO sightings in that area of Virginia in 1970. There was a huge spike in the UFO reports at that time. At that same time, the state of Virginia was building its first nuclear power reactor. We now have decades of data that show that nuclear power plants and nuclear ballistic missile sites are the most common places for UFO sightings.

It would only be a few years later, in 1974, that I had an experience which, literarily, scared the hell out of me. I now understand from other UAP/UFO experiencers, that this may have been a multidimension being appearing in my bedroom. Here is my description of the event from my 2017 book "Miracles To Yesterday"<sup>5</sup>:

“At a very young age, I began talking to God. I am not sure why because it seemed to be a one way communication. By the time I got to high school, my dad had settled into his final job and I had started developing friends after my parents final move. I stopped talking to God until a frightening experience I had at the age of 14. I had just gotten into bed one evening and was wondering how I would get to sleep with my parents still up and about. A creaking sound came from the opposite corner of my room. The house was known to make strange noises, but this turned into something different. I began to hear what I was sure were footsteps coming closer to my bed. Lots of things were going through my head trying to figure out what it could be. Was it my imagination? The footsteps stopped at the point where it reached my bedside. I was beginning to get scared. There was then a “swish,” and cold air blew onto my face. It was like something had been thrown through the air just inches from my head. A huge crash occurred on the opposite wall in the direction of this movement. I was frozen with fear for maybe one or two minutes. I then jumped up and turned on the lights. There was nothing there. Expecting to find damage on the wall, there was none there. There was nothing around the wall that could have accounted for the crash. I was shaking with fear. For the next two hours, I would not be able to come up with an explanation. I reluctantly got back into bed but not until I talked with God. Those talks would continue every night for years, until the fear of the incident faded away.”

After studying hundreds of UAP/UFO experiences, I can now understand that the loud crash may have been a sonic boom as an alien being propelled itself from my bedroom and into another dimension.

After publishing that first book, I was drawn to a Marian Apparition site in Georgia where I experienced a number of miraculous events. A dying priest had given me the calling to write another book about the scientific work done at this site in the 1990s. In 1993, a team of scientists took measurements on and around a so called visionary woman who said she was seeing and talking to Jesus and Mary. Many miracles had been reported at the site including the Miracle of the Sun, and people seeing Mary in the sky. Oddly, one couple saw very different things. The devout Catholic wife saw Mary in the sky while the agnostic husband saw a flying saucer. An interview I had with a man who had experienced the Miracle of the Sun at the site told me that he felt like there was some kind of mind control going on, like telepathy, because all his family members saw an obvious Miracle of the Sun event but people next to them could not see it.

Several atheist members of that scientific team became religious believers after witnessing the scientific results. Although there was no scientific explanation at that time, almost 30 years later, I quickly came to the conclusion that all the amazing unexplained observations and measurements made by the team, fell into the realm of Quantum Mechanics. My book would be titled “Crossverse: An Answer to Life, the Universe, and Everything.”<sup>6</sup> The conclusion of the book is that our consciousness extends outside the dimensions of space and time and it connects us with the creator. Religion is a method for raising our level of consciousness and initiating supernatural events.<sup>7</sup>

The man behind the largest of the UAP/UFO non-human intelligence disclosure projects is Dr. Steven Greer. Greer is an American ufologist and a retired physician. He founded the Center for the Study of Extraterrestrial Intelligence and the Disclosure Project, which seeks the disclosure of alleged classified UFO information.<sup>8</sup>

Greer has met with every President over the 30 year period of his disclosure project. He also met with President Jimmy Carter who experienced, and documented, a UFO sighting while he was Governor of Georgia. When Carter and Bill Clinton became Presidents, one of their first requests was to be debriefed on UAP/UFO knowledge that the United States has gathered. In both cases, they were told it was “none of their business” by George H. Bush who had been the CIA Director when Carter became President and the out-going President when Bill Clinton became President.

Greer, through his own personal alien experience and the research work of his disclosure project, has concluded, like me, that true reality is consciousness itself. During this same period of time, physicists have reluctantly admitted the same thing after proving that consciousness alters reality. One physicist says we may never understand consciousness since it could be from outside the universe.

Greer has created a diplomatic and research-based initiative to contact extraterrestrial civilizations. His disclosure project now has over 750 whistleblowers, many of whom held top positions in the CIA, military, and other government agencies that were tasked with investigating UAP/UFOs and remote viewing. The CIA had a remote viewing program for decades where they used people gifted with telepathic skills, to remotely view locations anywhere on the planet. The disclosure project aims at dismantling the deep-state and black-ops of the CIA and military which have been hiding the reality of UAP/UFO non-human intelligence for the purpose of maintaining control of people and preventing non-human intelligence technology from falling into the hands of the enemies of the United States.<sup>9</sup>

Once again, like with the COVID-19 vaccines, the government has been hiding the truth for the purpose of maintaining control over people.

The Catholic Church is another great place to find evidence of the truth when it comes to the UAP/UFO non-human intelligence.<sup>10</sup> Unlike governments of the world, the Church over the centuries, has learned that you cannot indefinitely withhold the truth from the people.

The church knows all about the 8000 year old cave drawings that show Grey aliens and flying saucers. They know all about the 500 year old paintings showing such things as a flying saucer emitting a beam of light, the Holy Spirit, onto the womb of Mary to initiate the conception of Jesus and another painting showing a flying saucer emitting a beam of light down on Jesus when

For decades, the Church tried to withhold the 1918 accounts of people at Fátima. The church officially recognized the Fátima events as worthy of belief in 1930, but they recorded that the main object of interest was the Miracle of the Sun, which was viewed by thousands of people. A photograph captured this object. When the church finally released the 1918 accounts, it turns out that the people were not describing the sun, but a metallic disk that was flying back and forth and up and down. The accounts described many people receiving radiation burns as the disk flew by them. They also described that the visions of Mary and an angel were holographic-like projections from orbs that were hovering above the ground. But not all people witnessed these visions.

The turning point for the Church was probably in the 1930s, prior to WWII, when a flying saucer crashed in Italy. Both Pope Pius XXII and Benito Mussolini were involved with the initial studies of the craft and, at the end of WWII, the United States was able to take possession of it from Mussolini's famous bunker under Mount Soratte.<sup>11</sup> Some accounts state that the Church determined the technology behind it was far beyond anything humans could have created.

When Winston Churchill found out about the saucer, he traveled to the United States and met with General Dwight Eisenhower and other United States officials. He demanded that the saucer be kept a secret. Churchill thought that revealing this truth could cause a worldwide panic because it would show that the governments and militaries of the world could not stand up against such a technically advanced alien race. He also feared that people would lose their religious faith and this could collapse society.<sup>12</sup> But this seems like another excuse for the governments to hide the truth from people because all the major religions of the world include references to extraterrestrial beings that have come from the stars to help humans. The Book of Enoch is an ancient Jewish apocalyptic religious text which mostly covers "The Watchers" who are angels from the stars. The Christian New Testament has a number of references to Enoch.

Shortly after WWII, the flying saucer crashes at Roswell occurred in the United States and this seems to be the point at which the United States began a reverse engineering project on the alien technology. Many whistleblowers state that the United States had figured out anti-gravity by the late 1950s. And probably by no coincidence, Dwight Eisenhower became the President then. When Eisenhower left the office he gave a message (recorded on film) about his concerns over a growing secret black-opt operations in the military.<sup>13</sup> Today the Pentagon has now failed every audit performed on them. Seven of them. They cannot explain where billions of dollars have been going.<sup>14</sup>

Meanwhile, in a 180 degree turn in 1950, the Pope put out a statement to all Catholics asking them to be open to the idea of evolution. In 1996, Pope John Paul II made it official stating that God created all life through evolution.<sup>15</sup> When asked about how extraterrestrial aliens fitted

into the faith of the Church, without hesitation, Pope John Paul II stated that “aliens are children of God just like we are.”<sup>16</sup>

In the 21<sup>st</sup> century, the Church has now given multiple conferences on extraterrestrial intelligence.

That large group of whistleblowers are not just average people.<sup>17</sup> Any lawyer will tell you that your court case would be a slam-dunk win if you had just two or three people of this caliber on your side. Paul Hellyer was Canada's Minister of National Defense and the longest-serving member of the Queen's Privy Council for Canada. He spent the last years of his life, giving testimony to the fact that the United States was working with four extraterrestrial species which included Greys, tall Greys, Reptilians, and Nordic Blondes. This was the inspiration for me using the Greys, Reptilians, and Nordic Blondes in the Vaccine Zombies game.<sup>18</sup>

Today, the evidence supporting UAP/UFO and non-human intelligence is overwhelming, but the governments of the world are still denying it. They are still trying to control their people and act like they are in control. The truth is that Earth is probably a laboratory, and humans may just be like monkeys in a zoo, who are defenseless against far superior beings. Fortunately, it appears that most alien races are still trying to help humans and stop us from killing ourselves and ruining the beautiful Earth.

The deniers are rapidly losing the debate. Disclosure is imminent.

You can learn more about the disclosure project at: <https://drstevengreer.com/>

Dr. Greer has the following list of action items that the Disclosure project is working on:

### **Recommendations regarding the UFO/UAP issue.**

1. Criminal investigation of illegal, covert government and corporate programs related to UFO/UAP.
2. Authorize law enforcement search and seizure of these illegal operations and their assets.
3. Immunity and protection for those currently or previously in these illegal projects if they cooperate fully.
4. A national and international initiative to make diplomatic peaceful contact with ETs.
5. An immediate program to develop the energy generation aspects of ZPE – Zero Point Energy – to replace oil, gas, nuclear power etc.
